

I AM DINO

The Jungle Paper

(The Meme's Alive Again)

The Dino Awakens

Long ago, dinosaurs ruled the Earth
Then... extinction. But one Dino never
left. It hid inside the blockchain-
waiting, evolving, and scrolling
memes for millions of years.

Now it's back. Not to roar, but to
tap, earn, and meme its way across
the digital jungle.

Welcome to IAMDINO

a community-driven meme experiment
that turns simple gameplay into
digital evolution. Each tap, jump,
and move you make inside the Dino
Game (Telegram Mini App) earns you
points of survival.

Survive longer → score higher →
evolve faster → earn IMDINO tokens.

This isn't just a meme. It's a
movement. A comeback story from
extinction to expansion - one tap
at a time.

Core Idea:

"Play, Earn, and Rule the Digital Jungle."
